ALARM CLOCK RADIO  
BLUETOOTH SPEAKERS  
HOME AUDIO BLUETOOTH SYSTEM

## N-9

Have you been yearning for an alarm clock that is petite yet powerful, allows you to charge your iPhone® and provides good sound quality?

Then look no further. The NYNE N-9 gives you what you want, and then some! Its slim and sleek profile fits perfectly on your nightstand without obstructing your view.

The custom-designed display is easy to read and the backup battery will come to your rescue during those unexpected power outages. Speaking of power, the sound that comes from this little machine is absolutely amazing.

NYNE's N-9 has an Apple-certified universal docking mechanism that can be used with most iPods® or iPhones. The design engineers took your mobile lifestyle into account and went a step further, providing an integrated docking space that is wide enough to fit most Apple mobile devices with most protective covers in place, yet still snug and safe. When you're ready to go out, just grab your fully charged device and take off. Don't have an Apple device? No problem. Attach any mobile device, such as your Droid or MP3 player, to the N-9's convenient auxiliary input, and enjoy!

With the N-9, you can start your day any way you want, be it with music from your play list, your favorite FM radio station, or a traditional alarm buzzer. When you hear the clear, crisp acoustics of the N-9, you may be tempted to lie in bed a little longer. The included snooze control will wake you again just in time to get to work. With the dual alarm function, you won't have to remember to wake your sleep partner before you walk out the door – unless you fall in love with the N-9 and decide to slip it in your suitcase for that overnight business trip. You just might have to buy two of these little beauties, one for travel and one to stay at home!

N-9

## N-19

Tired of trying to manage the clutter on your bedside table? With the NYNE N-19 you can sweep away those mobile device chargers and your clunky out-dated alarm clock.

**Make way for a modern, compact, integrated system that will satisfy all your needs without sacrificing functionality.**

The NYNE N-19 is a low-profile, professionally-designed alarm clock that syncs time automatically with your iPod®, iPhone®, or iPad®. It keeps your device ready to use on the go, provides great sound quality, and includes a remote control. It is a high end, feature-rich, docking alarm clock with a design that blends so well with your Apple device that you'll want to spend hours just staring at it. The custom display is easy to read and the backup battery will come to your rescue during those unexpected power outages.

Don't have an Apple device? No problem. Attach any mobile device, such as your Droid or MP3 player, to the convenient auxiliary input and enjoy! You can even watch your favorite music video or movie from your mobile device directly on your TV by taking advantage of N-19's S-Video output port.

NYNE's N-19 has an Apple-certified universal docking mechanism that can be used with most iPods, iPhones, or iPads. Your mobile lifestyle has been taken into account by design engineers who went a step further, providing an integrated docking space that is wide enough to fit most Apple mobile devices with most protective covers in place. Wake up to the crisp, clear sounds of a custom playlist, your favorite AM/FM station, or the traditional alarm beeper. If you're tempted to grab a few extra ZZZs, don't worry because the included snooze control will wake you again just in time to get to work. With the dual alarm function, you won't have to remember to wake your sleep partner. When you're ready to go out, just grab your fully charged device and take off.

## NB-200

Audio made easy. NB-200 proves that you can take it with you – in your bag, on your bike, or poolside.

You can even attach NB-200 to your handlebars with the provided custom clips. What you will be taking with you wherever you go is robust, room-filling sound with incredible detail and convincing lows.

Advanced acoustic engineering derived from years of experience results in a combination of high-quality proprietary acoustic speakers with an innovative passive radiator in an airtight housing that delivers in-home quality audio that is capable of filling a room, but petite enough to carry in a handbag.

As an extra you can use NB-200's powerful, built-in microphone for hands-free and conference calling. Charge your NB-200 using your USB connection and synch your iPod®, iPhone®, or iPad® via Bluetooth®. Start experiencing cordless, crisp, grab-and-go sound for up to five hours with the rechargeable lithium battery. All of this in the ultra mobile NB-200, a powerful light and compact design proving that good things do come in small packages.

NB-200

## N-29BT

Tired of trying to manage the clutter on your bedside table? With the NYNE N-29BT you can sweep away those mobile device chargers and your clunky out-dated alarm clock.

**Make way for a modern, compact, integrated system that will satisfy all your needs without sacrificing functionality.**

The NYNE N-29BT is a low-profile, professionally-designed alarm clock that syncs time automatically with your iDevice. It keeps your device ready to use on the go, provides great sound quality, and includes a remote control. It is a high end, feature-rich, docking alarm clock with a design that blends so well with your Apple device that you'll want to spend hours just staring at it. The custom display is easy to read, and the backup battery will come to your rescue during those unexpected power outages.

Don't have an Apple device? No problem. Take advantage of the latest Bluetooth 4.0 technology and connect your device wirelessly.

NYNE's N-29BT has an Apple-certified lightening dock that can be used with all new Apple Lightening products. NYNE's design engineers went a step further, providing a light sensor and auto dimmer that adjusts accordingly. Wake to the crisp, clear sounds of a custom playlist, your favorite AM/FM station, or the traditional alarm beeper. If you're tempted to grab a few extra ZZZs, don't worry because the included snooze control will wake you again just in time to get to work. And with the dual alarm function, you won't have to remember to wake your sleep partner. When you're ready to go out, just grab your fully charged device and take off.

## NB-250

You're tough. You've trained hard and are ready to meet any challenge that life tosses in your path.

The NYNE NB-250 Bluetooth speaker is also well prepared for a never-say-die lifestyle.

Sling the provided shoulder strap over your shoulder and take it to the summer beach party, an impromptu poolside celebration, or your friend's surprise birthday bash. Are the parties in full swing and the crowd getting a bit rowdy? No worries. The NB-250's fully rubberized cover repels water splashes and the occasional spilled drink. With 8 to 10 hours of Lithium Ion battery power, you and your friends can dance into the wee hours without fear of a sudden shut down. All of this while simultaneously charging your mobile device through a convenient USB port. Incredible!

Compatibility problems are not an issue with NYNE's NB-250. Whatever your Bluetooth-enabled device – be it iPod, iPhone, iPad, MP3, smart phone, or tablet – you're good to go. Built-in dual passive radiators and a DSP dynamic control chipset provide super high quality sound. Cranked up to full power, the NB-250 is prepared to entertain a crowd. So go on – add a NYNE NB-250 to your portable tech repertoire and enjoy life to its fullest without skipping a beat.

## NH-5000

With elegant styling, awesome sound and advanced interface, the NH-5000 lives up to 5000 family's reputation.

With styling similar to that of the NH-5500, the NH-5000 is a more compact and affordable, acoustically-advanced iPod®, iPhone® and iPad® docking and charging system.

Despite its portability, the compact size does not prevent NH-5000 from achieving an impressive and authentic sound experience to please most sound enthusiasts, whether they like the punchy bass of hip-hop or the soaring highs of opera. If your lifestyle depends on the likes of Apple, Android™, MP3, Bluetooth® or all of them, NH-5000 makes it easy to take advantage of current technology. NH-5000's many features include advanced digital processing for signal integrity, auxiliary input for MP3 and other audio sources, and video output to your TV.

NH-5000 has a full-function remote control, navigation of album/tracking, four selectable sound setting modes for your preferred style of music, and more. With the NH-5000, NYNE is committed to giving you an acoustically and technologically advanced audio product at an affordable price. If you want an outstanding yet compact audio system, let NH-5000 accompany you.

## NH-5500

NH-5500 is a master, a performer of consummate skill. That perfectly describes the NYNE NH-5500.

The most acoustically advanced high quality iPod®, iPhone® and iPad® docking and charging music player. Imagine a room-filling audio performance so powerful, yet natural and lifelike that it can be your home's primary digital music system.

Your home is your domain, so why settle for anything less than the best in your home audio system? NYNE's engineers have combined stunning design with exceptional acoustic realism to produce an immersive listening experience with unsurpassed sound clarity. NH-5500 allows you the freedom of listening to your iPod, iPhone, or iPad through a convenient Apple-certified 30-pin connector. You can also synch any compatible mobile device remotely with NH-5500 via Bluetooth®, or by direct connection to the auxiliary input on the back of the unit. If you want to display video content while listening, just hook up to the composite and S-Video output connections. To take advantage of its range of capabilities, NH-5500 has a full-function remote control, four sound setting modes for your style of music, navigation of album/tracking, and more.

Amazingly, all of NH-5500's features occupy a single, affordable unit that avoids cumbersome wiring. So unleash your home audio system and let NH-5500 enhance your home space, not just occupy it. With NH-5500 at the podium, you can sit back, relax, and savor the sound. Your personal muse will thank you.
